

ALLERGEN GUIDE

UNITED KINGDOM

We want all of our customers to feel relaxed eating at Rasoi, so we take very seriously our responsibility towards looking after our guests with food allergies, dietary requirements and coeliac disease. We proactively ask about allergies and have allocated allergen managers to ensure a safe process, from order through to serving.

This guide has been developed to help you make a safe and informed choice about our food. If you have any concerns, please talk to a member of staff.

Please take some time to read the important information opposite, and please tell us about your allergy before ordering.

For Click & Collect and delivery orders, we can't currently cater for allergies or specific dietary requirements. Please come and visit one of our restaurants to order in person or dine in with us.

IMPORTANT INFORMATION

This allergen guide covers the 14 allergens specified by the EU Food Information Regulations*. It lists what allergenic ingredients are contained in each of our dishes, and also shows which are suitable for vegan and vegetarian diets.

We do not currently carry across 'may contain' warnings from our suppliers. In addition, our busy kitchens handle numerous ingredients and allergens. Whilst we have controls in place to reduce the risk of cross-contact, it is not possible for us to guarantee that our dishes will be allergen free.

Unfortunately, allergen segregation is not possible in our fryers. This is detailed in the guide, so please just check the comments on each dish before ordering.

Please remember to check this guide every time, as our dish descriptions don't always mention every single ingredient and recipes do change from time to time.

Allergens contained within our condiments are not included in this information.

Our vegan dishes are made with care to a vegan recipe. However, due to cross-contact at our suppliers and in our busy kitchens, these dishes are not necessarily suitable for those with allergies.

Please bear in mind that, due to the seriousness of allergies and food intolerances, our restaurant teams will not be able to help select dishes and do not hold full ingredient information on any menu items. If you are unable to find a dish suitable for your dietary requirements, we advise you not to order. However, as you know more about your allergy than we do, we will leave it up to you if you want to proceed. Alternatively, send us an email for more information.

We recognise that some people want to avoid many other food ingredients. We are committed to continually reviewing and improving our processes around allergies and dietary requirements, and we are working on a solution that will enhance our ability to provide more detailed ingredient and allergen information in the near future.

* In accordance with the EU Food Information Regulations, only cashew nuts, almonds, hazelnuts, walnuts, brazil nuts, pistachio nuts, macadamia nuts and pecan nuts are covered under the "nuts" column on our allergen guide. Ingredients such as pine nuts (pine kernels) or chestnuts are not covered.
